

BySoft Insight Work Center Console

Boost your production output.

The **BySoft Insight Work Center Console** allows you to access detailed data from all your work centers. In this way, you always know what is going on on your shop floor. The Work Center Console monitors and analyzes the data and informs you about measures you can take to optimize your production output.

Your benefits

- 01 Objective data at your fingertips**
Base your decision-making on real-time information about all your work centers in order to boost your productivity.
- 02 Unleash untapped potential**
Assess your KPIs and analyze each stage of your production process to unleash untapped optimization potential.
- 03 Monitor deviations from the plan**
Monitor and assess your production to identify and minimize deviations from the plan.

Your features

Simple access to information

The BySoft Insight Work Center Console connects to Bystronic and third-party systems to obtain information on capacity, idle times, and why they occur, in order to help you make informed decisions that boost your productivity.

Standardize and assess KPIs

Utilize objective data from your work centers to gain insights and compare the efficiency of your machines.

Analyze each stage of your production process

Gain an overview over what is going on at your individual machines and adapt your workflows to respond to your customers' changing needs.

Experience it live!

BySoft Insight Shop Floor Console

Analyze your production.

The **BySoft Insight Shop Floor Console** allows you to analyze the performance of your production as a whole. Access a wide range of parameters to find out how efficient your production workflows are and how you can improve them.

Your benefits

- 01 Keep an eye on your shop floor**
 Analyze your production as a whole and access detailed information about all your manufacturing workflows.
- 02 Optimize your production to ensure everything is going to plan**
 Base your decisions on in-depth analyses to ensure you always stay ahead of the changing needs of the market.
- 03 Continuously improve your productivity**
 Compare your planned and actual output and analyze every step of your production process to expose untapped improvement opportunities.

Your features

Connect to BySoft Shop Floor

Access a wide range of data to help you ensure your decisions are based on what is actually happening on your shop floor.

Base your planning on data

Analyze the data from your shop floor to ensure you make the right decisions to maximize your output.

Access reports via a single interface

Use a single interface to access current and historical KPIs in order to analyze and improve the performance on your shop floor.
